Skills

Languages: Javascript, HTML, CSS

Technologies & Tools: React JS, Angular, Bootstrap, Tailwind CSS, Figma, MongoDB, MySQL, Eclipse, VSCode

Education

Luminar Technolab, Kochi   May 2024 -
MEARN FULL STACK
Relevant Coursework: JavaScript, Node.js, Express, MongoDB, RESTful APIs, Front-End Development (React, Angular), UI/UX Design, Asynchronous Programming, State Management, Responsive Web Design, Deployment, and Version Control (Git)

Arts and Science college, Taliparamba   June 2021 - March 2024
BSC Electronics
Relevant Coursework: Built a strong foundation in technology through studies in electronics, circuit design, and embedded systems, complemented by essential programming skills. Developed hands-on experience with technical systems and modern software tools, telecommunications, and automation

Project Work

- **Journal Spotlight:**Built for managing and showcasing journals using the MERN stack, featuring full CRUD functionality.Integrated RESTful APIs, authentication, and MongoDB for data storage.. The platform enables seamless journal creation, editing, and browsing with a focus on user-friendly design and efficient performance.
    - https://journalspotlight.netlify.app
- **Weather App using React:** Designed and deployed a weather app using React, integrating a weather API to fetch and display real-time weather data for specific cities.
    - https://weather-react-app-akps.netlify.app
- **Dynamic Registration Form:** Developed a student admission form with React, featuring input validation, course selection, and submit/reset functionality, with alerts on successful
- **Static Websites:** Developed and deployed multiple static websites with responsive design and modern UI:
    - https://test-travelsite-akshayps.netlify.app
    - https://bookstore-demopage.netlify.app
    - https://two-setcoffee-task3.netlify.app
    - https://gardener12.netlify.app/

Expertise Summary

- Skilled in quickly learning and applying new technologies.
- Dedicated to delivering thorough and high-quality work.
- Experienced in working collaboratively with diverse teams.
- Attentive to detail and committed to continuous improvement.
- Actively follows industry developments and best practices.

Additional Information

Languages: English (Fluent), Malayalam (Native), Hindi (Intermediate)
Interests: Open-source contributions, UI Designing, Data Visualization, Blogging about tech trends
